#### About Urbana:

Urbana Greens grows local, natural, and sustainable artisanal produce in the NYC metro area. We specialize in "living" baby greens and microgreens. All of our products are delivered living or cut to order the day before to ensure an ultra fresh premium product. Our year round greenhouse production process is pesticide free and utilizes many organic methods. The farm is located 10 miles from Manhattan in Essex County NJ. Urbana is a socially responsible company that is committed to the community through education, training, and food donations.
